Frogmen Blasted Cuba Freighter, Exiles Report

MONTREAL, Aug. 9 (UPI) — An explosion rocked a 1091-ton Cuban freighter in Montreal harbor today and a Cuban exile group based in the United States announced their frogmen had set it off as the first of a series of raids against Cuban vessels and ships trading with the Communist regime of Fidel Castro.

The headquarters of the Cuban Nationalist Association in New York said the 13-man team involved in the operation swarmed on board the ship in the pre-dawn confusion following the blast and captured "valuable confidential documents" from the Cuban commissar's safe on board.
